Problem-Solution Fit Canvas: Use the framework below to ensure your proposed solution accurately addresses the root causes, behaviors, and limitations of your target audience.

1. CUSTOMER SEGMENT(S) [CS] Indie Comic Creators & Illustrators: Artists seeking fast layout & dialogue ideation. Content Creators & Social Marketers: Visual storytellers needing quick comic strips. Educators & Writers: Non-artists wanting to transform lessons or scripts into visual stories.	6. CUSTOMER LIMITATIONS [CL] Budget Constraints: High cost of hiring illustration teams or buying licenses. Device Hardware: Lack of high-end GPUs/drawing tablets for rendering. Time Limits: Tight production schedules with slow manual drawing workflows.	5. AVAILABLE SOLUTIONS PROS & CONS [AS] Manual Artwork (Photoshop/CSP): <i>Pros:</i> High creative control. <i>Cons:</i> Extremely time-consuming & expensive. Generic AI Image Generators: <i>Pros:</i> Fast single image output. <i>Cons:</i> Inconsistent characters, no multi-panel story layout.
2. PROBLEMS / PAINS + ITS FREQUENCY [PR] Inconsistent Characters (Daily): Generic AI tools fail to keep character identity consistent across panels. High Turnaround Time (Weekly): Drafting scripts, storyboard layouts, and panels manually takes weeks. High Skill Barrier (Always): Great storytellers lack drawing skills to illustrate ideas.	9. PROBLEM ROOT / CAUSE [RC] - Standard generative AI models treat each prompt independently without multi-panel context or character memory. - Lack of an integrated pipeline combining LLM story scripting with consistent visual generation in a comic layout.	7. BEHAVIOR - ITS INTENSITY [BE] High Effort Workarounds: Creators stitch multiple generated images together manually, spending hours fixing visual inconsistencies. High Dropout Rate: Many writers abandon comic projects due to illustration bottlenecks.
3. TRIGGERS TO ACT [TR] - Need to publish frequent content on social platforms. - Impending publishing deadlines or client requests. 4. EMOTIONS BEFORE / AFTER [EM] Before: Frustrated, overwhelmed, blocked by technical drawing constraints. After: Empowered, inspired, satisfied with fast visual storytelling.	10. YOUR SOLUTION [SL] ComicCraft - AI Comic Story Creator Gemini Multi-Modal Integration: Uses Gemini models for scriptwriting, panel segmentation, and prompt engineering. Character Consistency Engine: Maintains character visual traits across panels automatically. Automated Layout & Speech Bubbles: Renders complete comic pages with dialogue bubbles ready to publish.	8. CHANNELS OF BEHAVIOR [CH] ONLINE - Web Application & Cloud Platform - Social Media (Instagram, Webtoon, Reddit) - Discord Creator Communities ----- OFFLINE - Comic Conventions & Creator Workshops - Educational Seminars & Print Publications
